**Subject:** Settlement

I'd just like to let you know that I view the proposed Microsoft settlement as highly insufficient and anything BUT an actual settlement that disables their monopoly over the computer industry. All this proposed settlement does is extend their monopoly. As such I am appalled that the United States Dept. of Justice has agreed to accept it. Such an action clearly shows that either no intelligence was used in coming to that decision or they were influenced in some way by Microsoft's desires to end this case citing an impact on the economy. That is not a valid reason.
